

▮ Presentation Templates Editing Page

The **Presentation Templates Editing Page** is a dynamic and user-friendly interface that allows users to fully customize presentation templates with ease. This feature is ideal for creating structured, professional documents such as sales presentations, client handovers, project proposals, or reports.

▮ Key Features

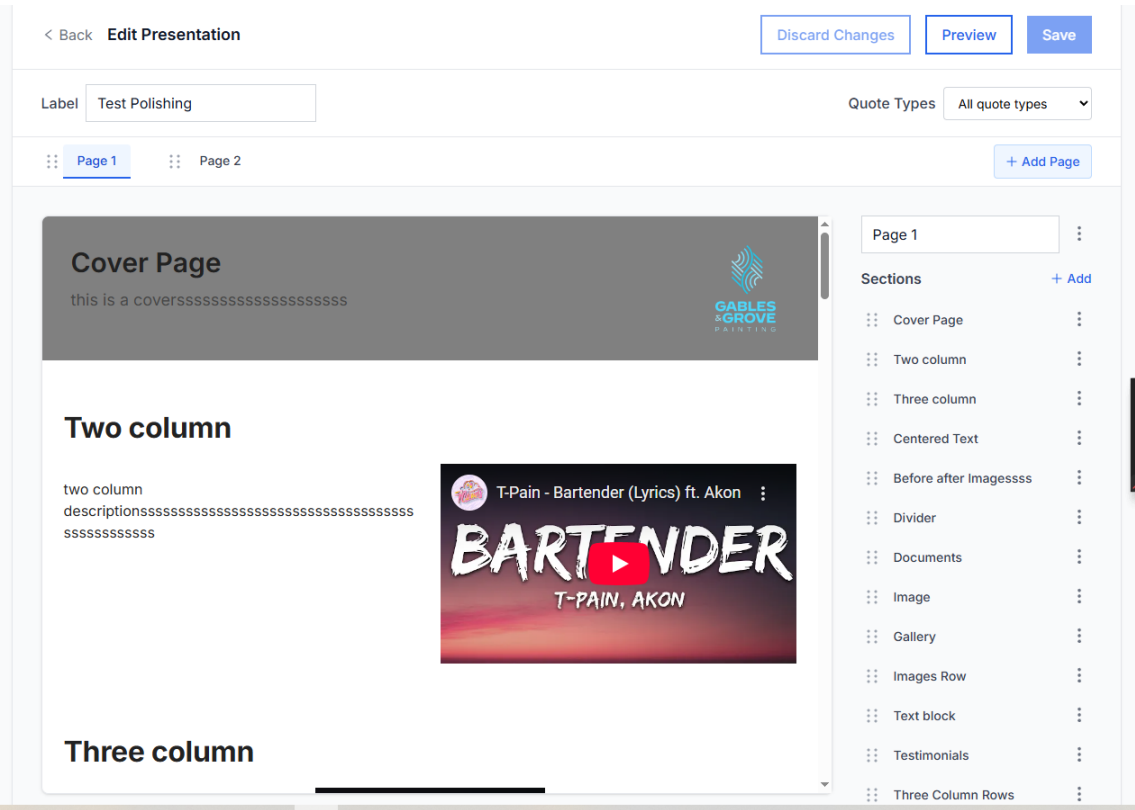

1. Page Management

Users can perform the following actions to manage presentation pages:

- ▮ **Add a Page** - Instantly create a new page in the presentation.
- ▮ **Rename a Page** - Edit the title of any page.
- ▮ **Delete a Page** - Remove any page permanently.
- ▮ **Reorder Pages** - Drag and drop pages **horizontally** to rearrange their order from left to right.

▮ Example UI - Page Management

Insert a screenshot showing the page bar or list where pages can be added, renamed, deleted, or reordered.

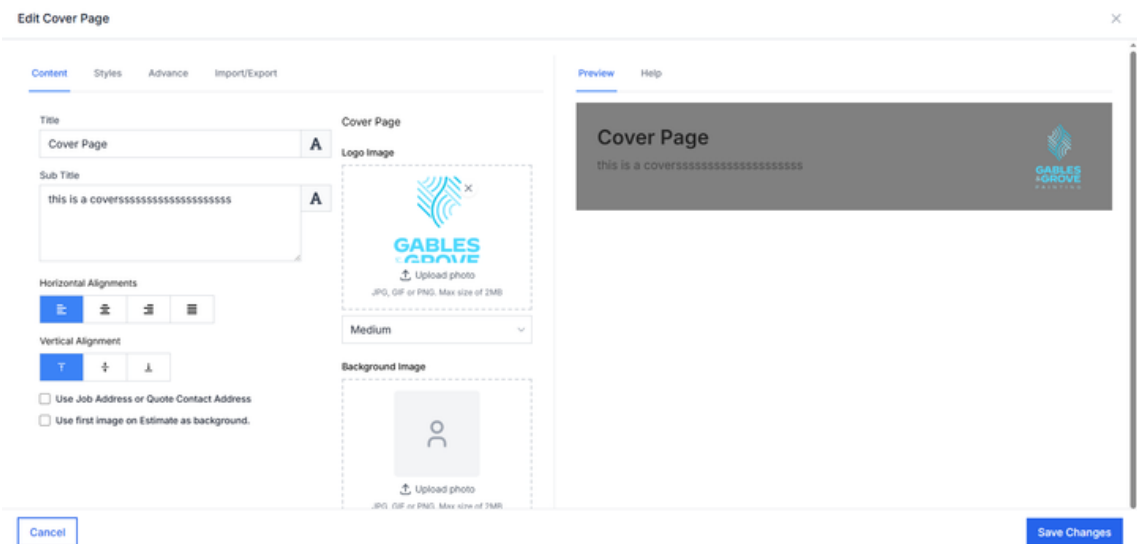

2. Section Management

Each page in the presentation can contain multiple content sections. Users can:

- **Add a Section** – Insert a new section using a template.
- **Delete a Section** – Remove any existing section from the page.
- **Reorder Sections** – Change the order of sections by dragging **vertically**.

Example UI – Section Editing

Insert a screenshot showing how sections appear inside a page and how they can be added or reordered.

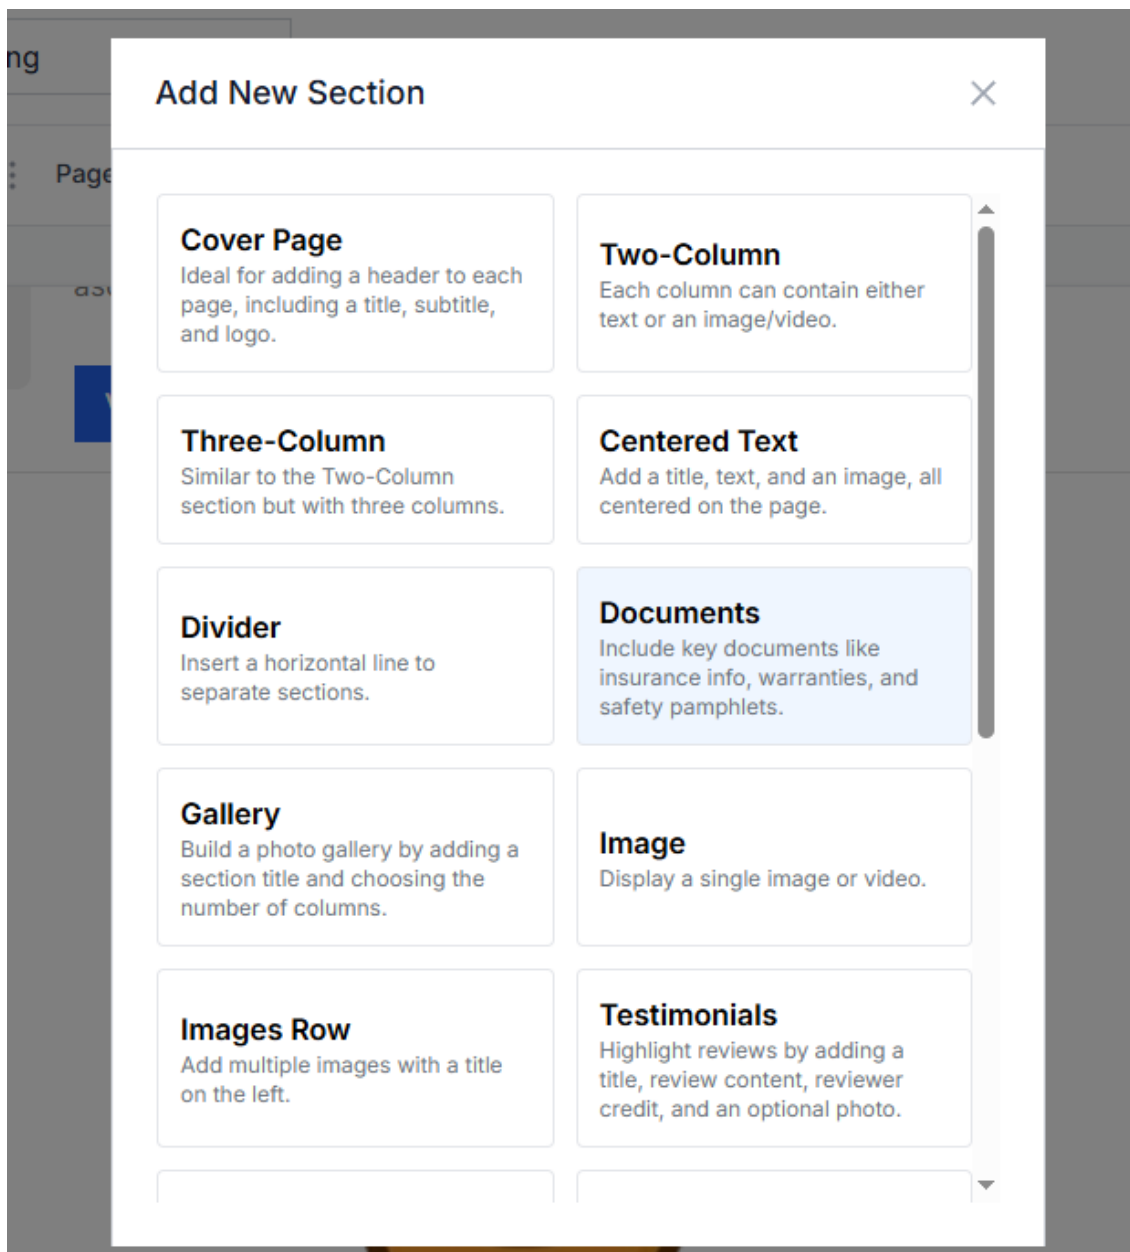

3. Section Template Selection

When adding a section, users can choose from a rich library of **19 available section templates**.

Template Selector Interface

Insert a screenshot or modal image where users choose from available section templates.

Section Editor Templates

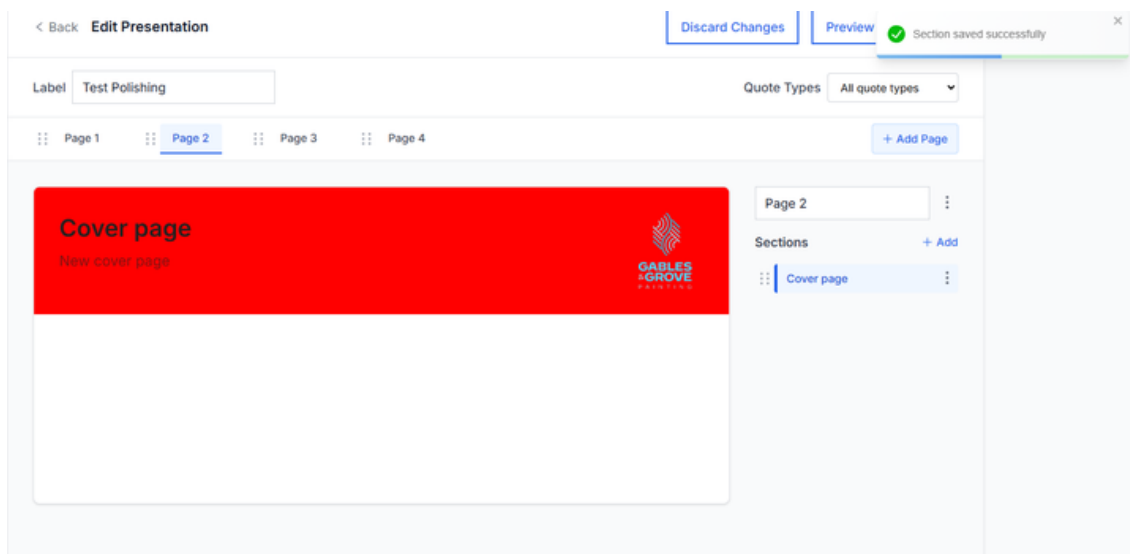

Here is a breakdown of all available section templates that users can choose from:

Type	Title	Description
cover-page	Cover Page	Ideal for adding a header to each page, including a title, subtitle, and logo.
two-column	Two-Column	Each column can contain either text or an image/video.
three-column	Three-Column	Similar to the Two-Column section but with three

		columns.
centered-text	Centered Text	Add a title, text, and an image, all centered on the page.
divider	Divider	Insert a horizontal line to separate sections.
documents	Documents	Include key documents like insurance info, warranties, and safety pamphlets.
gallery	Gallery	Build a photo gallery by adding a section title and choosing the number of columns.
image	Image	Display a single image or video.
images-row	Images Row	Add multiple images with a title on the left.
testimonials	Testimonials	Highlight reviews by adding a title, review content, reviewer credit, and an optional photo.
text-block	Text Block	Add text content with customizable formatting.
two-column-rows	Two Column Rows	Feature a photo on the left and content on the right.
custom-html-css	Custom HTML/CSS	Insert custom HTML and CSS code.
before-after-slider	Before & After Image Slider	Showcase transformations by sliding between two images.
social-media	Social Media Section	Create quick links to your social media profiles.
estimate	Estimate	Display the details as they appear on the estimate.
estimate-pictures	Estimate Pictures	Show the pictures attached to the estimate.
terms	Terms	Display the contract terms of your estimate.
work-order	Work Order	Show the work order as it appears on the work order page.

▮ Preview Example – Selected Template

Insert a screenshot of one of the section templates (e.g. Cover Page or Testimonials) after being inserted.

Summary

This interface allows stakeholders, team members, and clients to collaborate on professional presentations with ease. It ensures content is modular, organized, and reusable across various presentations while providing powerful customization without writing a single line of code.

Optional: Full Page Preview

Insert a screenshot of a fully built presentation page with multiple sections.
